

SABINESH S

AI Full Stack Developer • Software Engineer

sabinesh14s@gmail.com • +91 84890 39175 • [linkedin.com/in/sabinesh-s-736118294](https://www.linkedin.com/in/sabinesh-s-736118294) • github.com/sabinesh927 • [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated AI Full Stack Developer and final-year B.E. CSE student (2027) with hands-on experience across 4 internships in web development, LLM integration, RAG pipelines, and agentic AI systems. Skilled in building end-to-end intelligent applications using React, Django, LangChain, and LangGraph. Seeking a challenging Software Engineering role at an MNC to deliver scalable, AI-driven solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive UI/UX Design

Backend: Python, Django, REST APIs, Full Stack Development

AI / ML: LLM Integration, RAG (Retrieval-Augmented Generation), LangChain, LangGraph, Agentic AI, Multi-Agent Systems, AI Chatbot Development, Vector Databases

Data & Analytics: SAS, R

Tools & Platforms: VS Code, Git, GitHub, Antigravity, AI Coding Tools, Version Control, Agile Collaboration

EDUCATION

B.E. — Computer Science & Engineering

Expected 2027

Stella Mary's College of Engineering, Nagercoil

Higher Secondary Certificate (HSC)

Passout: 2023 | 68%

Uma Metric Higher Secondary School, Nagercoil

INTERNSHIP EXPERIENCE

Software Developer Intern | ACL Digital | India

Jan 2026 – Present

- Building intelligent software features leveraging LLMs and agentic AI frameworks in a production environment
- Developing full-stack AI-integrated applications collaborating with cross-functional engineering teams
- Implementing scalable RESTful backend services using Python and Django

AI Developer Intern | Taras System Solution | India

Nov 2025 – Apr 2026 (6 Months)

- Designed and deployed a RAG-based chatbot using LangChain and LangGraph with vector database integration
- Built multi-agent AI pipelines and integrated LLMs into responsive web applications
- Developed a context-aware AI assistant with multi-turn conversation management

Web Developer Intern (Full Stack) | Capnies Infotech | Chennai

Sep 2025 – Oct 2025 (1 Month)

- Contributed to full-stack development using HTML5, CSS3, JavaScript, and backend integration with responsive design principles

Web Developer Intern | AK Infopark | Nagercoil

Jan 2025 (1 Month)

- Built responsive business web applications using React.js, Bootstrap, and JavaScript
- Developed RESTful API integrations and dynamic, reusable UI components

PROJECTS

RAG-Based AI Chatbot | *LangChain · LangGraph · Django · React.js*

- Built a RAG chatbot with vector search for intelligent document Q&A, integrated with Django backend and React frontend

Agentic AI Assistant | *LangGraph · LLM · Python*

- Developed a context-aware AI assistant with agentic architecture, multi-agent task routing, and multi-turn conversation management

Business Website | *React.js · Bootstrap · JavaScript*

- Designed and deployed a fully responsive corporate website with optimized performance, SEO best practices, and modern UI/UX

Personal Portfolio Website | *React.js · CSS3 · JavaScript · GitHub Pages*

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and internship experience
- Implemented clean, modern UI with mobile-first responsive layout and smooth navigation
- Deployed using GitHub Pages with continuous updates via Git version control
